8. Change the city name to get their weather

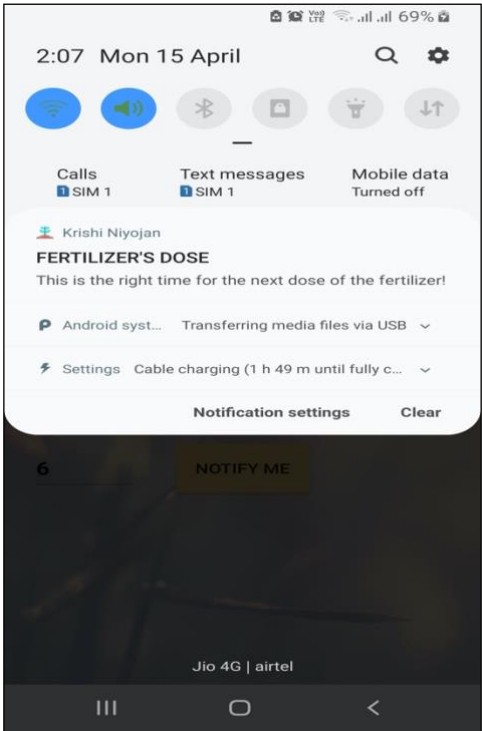

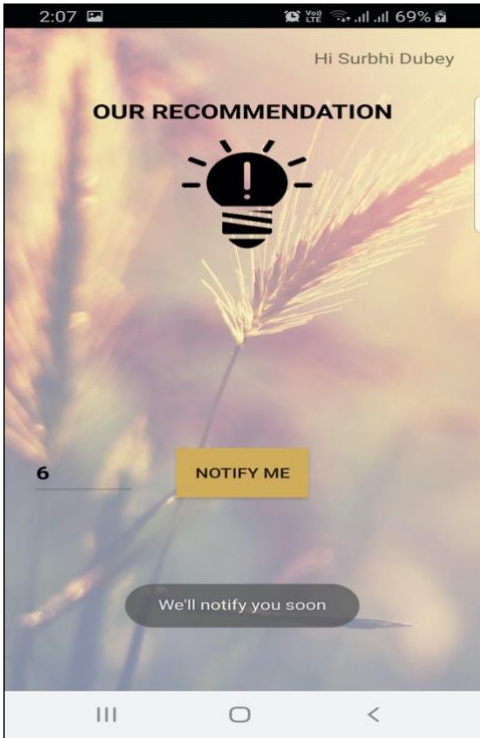

9. Start harvest screen

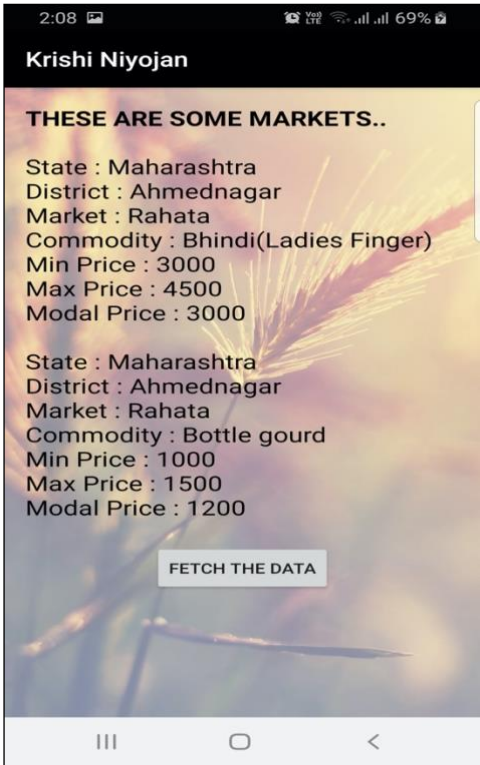

10. Suggested fertilizer, qnty, dose

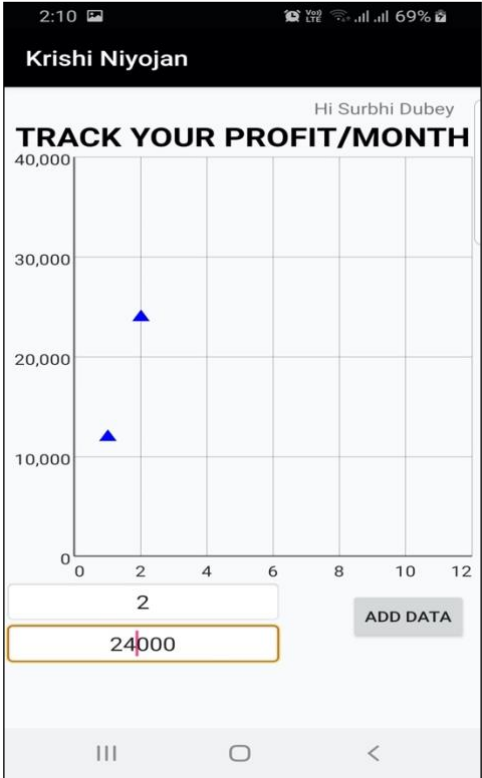

11. Click on notify me to get timely notification

12. check nearby market condition

13.Track your progress

14. Give feedback or post queries

The screenshot shows the 'Krishi Niyojan' app interface for providing feedback. At the top, it says 'YOUR FEEDBACK MATTERS!' with a clipboard icon. Below this, there are input fields for 'Name' (filled with 'Surbhi Dubey') and 'Password' (filled with 'surbhi@gmail.com'). A 'Feedback' dropdown menu is set to 'Type Your Feedback Here'. The text 'Including more crops would definitely' is entered in the feedback field. A yellow 'SUBMIT' button is at the bottom. The background is a blurred image of wheat stalks.
